■ If displaying ERROR while using the product:

- If **E₁** is displayed when DATA memory elements inside are damaged due to powerful noise from outside while using the product. In such a case, contact our company for customer service. Despite the controller is provided with supplementary measures for outside noise, it cannot endure infinite noise. Noise (2KV) abnormality may damage inside of the unit.
- If **E₂** or **E₃** messages appear, the sensor is defective. Please check the sensor.
